Subject: RE: ACTION Webinar nominations and cumulative impact stories (CCTE)

Hi Monica,

This list sounds good to me. The only other items I would have are not established projects yet, so I would be hesitant to suggest them now (e.g., Submerged Aquatic Vegetation, AltEn collaboration (University and/or States)). I looked at our current RARE projects and did not see any to nominate as well.

Thank you,
~Nisha

Subject: FW: ACTION Webinar nominations and cumulative impact stories (CCTE)

Hi Nisha, Sammy, Jill and Doug,

I neglected to submit CCTE's nominations for the state webinar series Lisa Matthews coordinates. The nominations were due last Friday. I had discussed many options with Nisha and Sammy but do not think we reached a decision. Attached is the current list of FY2022 webinar nominations as well as the 2022 webinar nomination form. Below are some of my suggestions. Thoughts on the below suggestions, additional ideas, etc? Please share ideas and feedback with the entire group on this email.

- GenRA (Grace)
- Customized TEST for MN Toxic Free Kids (Todd Martin, Kristin and Jill)
- TSCA POC/PICs process customized for Biosolids working with OW (Richard and Caroline)

Monica

Subject: FW: ACTION Webinar nominations and cumulative impact stories (CCTE)

Good morning,

We haven't received CCTE's list of [EPA Tools & Resources](#) and training webinar nominations for CY 2022. We've been trying to work through the ORD State Coordination Team on this request.

Please work with your team to send us a complete list of top CCTE tools/research of interest to the states. I'll be discussing the topics with Chris and Bruce to set our schedule for the year.

Thanks, and please let me know if you have any questions.

Lisa

Subject: ACTION Webinar nominations and cumulative impact stories

Good morning,

I hope you all had a nice Thanksgiving and enjoyed some time off! Thank you to everyone who has submitted webinar nominations. Attached is what we've received to date. We're still looking for additional nominations if you could please send them to Erin McCabe and me **NLT December 9**. We especially need a topic for our January webinar (January 19, can be pushed back to January 26 if needed).

I'd also like to follow up on our previous request for stories to be developed on ORD cumulative impact examples. Below is a list of stories we would still like written up. For clarification, while I'm requesting these in the [EPA Research Partner Support Story](#) format, you can still submit a story if there is no clear partner. Just leave that section blank. Even if there isn't a complete "story" just at least send us some information – this request came from IOAA. We need to have this information at the ready when the Administrator requests it.

- Chemical Co-Exposure Modeling (Kathie Dionisio)
- Lead Hotspots Mapping (CPHEA)
- Remediation of Multiple Sources of Pesticide Contamination (CESER)
- Neighborhood Revitalization, Cumulative Impact Optimization (CPHEA)
- Addressing Community Vulnerability: Equitable Resilience Builder (CESER)
- Floating Vegetated Islands (Tribal team/Brenda Rashleigh)

Please let me know if you have any questions.

Thank you,
Lisa
